You're Invited: Webinar Wednesdays

Friendly Reminder: We're continuing our weekly webinar schedule, where we'll demo a different Measure Square product each week. Each session will be categorized per level of familiarity with the software, including Beginner (Level 1) Intermediate (Level 2) and Advanced (Level 3).

The next webinar is **Wednesday, 8/20**, spotlighting MeasureSquare Mobile. [Click here to register.](#) To view upcoming webinars and on-demand webinars, visit our new Webinars landing page by clicking below.

Measure Square

FEATURED ON-DEMAND WEBINAR. Last week's MeasureSquare 8 webinar was a hit—one of our most attended and highly rated sessions to date.

Missed it? In this replay, Anastasia Adams takes you on a deeper dive into core MeasureSquare 8 features, including:

- Details you might've missed when using the Door tool
- Adding wall tile with Replace Tile in Diagram
- Creating ceilings with the Create Ceiling tool
- Using Phasing effectively
- Customizing worksheets to only show what's relevant to you

WATCH REPLAY

We also asked attendees to choose what they think Measure Square superpower would be. The results are in... what would you choose?

Room Scanner

LiDAR 3D Scanner App:
How It's Changing the Game for Flooring Pros

How Brian Burke Uses Room Scanner

Curious about the Measure Square app, Room Scanner? It's the LiDAR-powered technology that allows you (and anyone with an iPhone Pro), to capture professional, 3D floor plans in minutes.

Just ask Brian Burke, who uses Room Scanner during in-home shopping visits. His reps can walk through a space, scan it on the spot, and send the data straight to MeasureSquare Mobile. With just a few taps, they have an accurate takeoff ready to quote—sometimes before even leaving the customer's driveway.

"Room Scanner lets you walk around with the customer, have a conversation, and still capture all the measurements you need. It amazes them, and it frees you up to sell instead of just measure." — Brian Burke
